

Cedar River Natural Area Trails System Map

The Cedar River Natural Area contains one of the least known trail systems within Antrim County. These trails meander through untouched swamp conifer forest, upland forest, and riparian forest along the Cedar River.

There are three trailhead access points. The **Fairground Trailhead** is located at the County Fairgrounds and is the most used access point. The **Burrel Trailhead** and the **Mellon Trailhead** receive less traffic.

A variety of trail loops exist within the natural area. In total, there are 4 miles of trails. Trails are color coded and the approximate number of minutes it takes to walk a segment has been placed on the map below. Some of the trails are well-used, others are more adventurous.

The trails are jointly owned and maintained by the Village of Bellaire and Antrim County.
